

**FOR FAST, EFFICIENT AND FOOLPROOF VOLUME TEST & TAG**

# **SUPAPAT** FOR THE **BIG** JOBS

## **STANDARD SUPAPAT**

- **Supernova**
- **Thermal Vinyl Label Printer**
- **Bar Code Scanner**
- **Steel Trolley**
- **Extension Cord**
- **Removable strong**
- **Fully padded bag for Supernova**

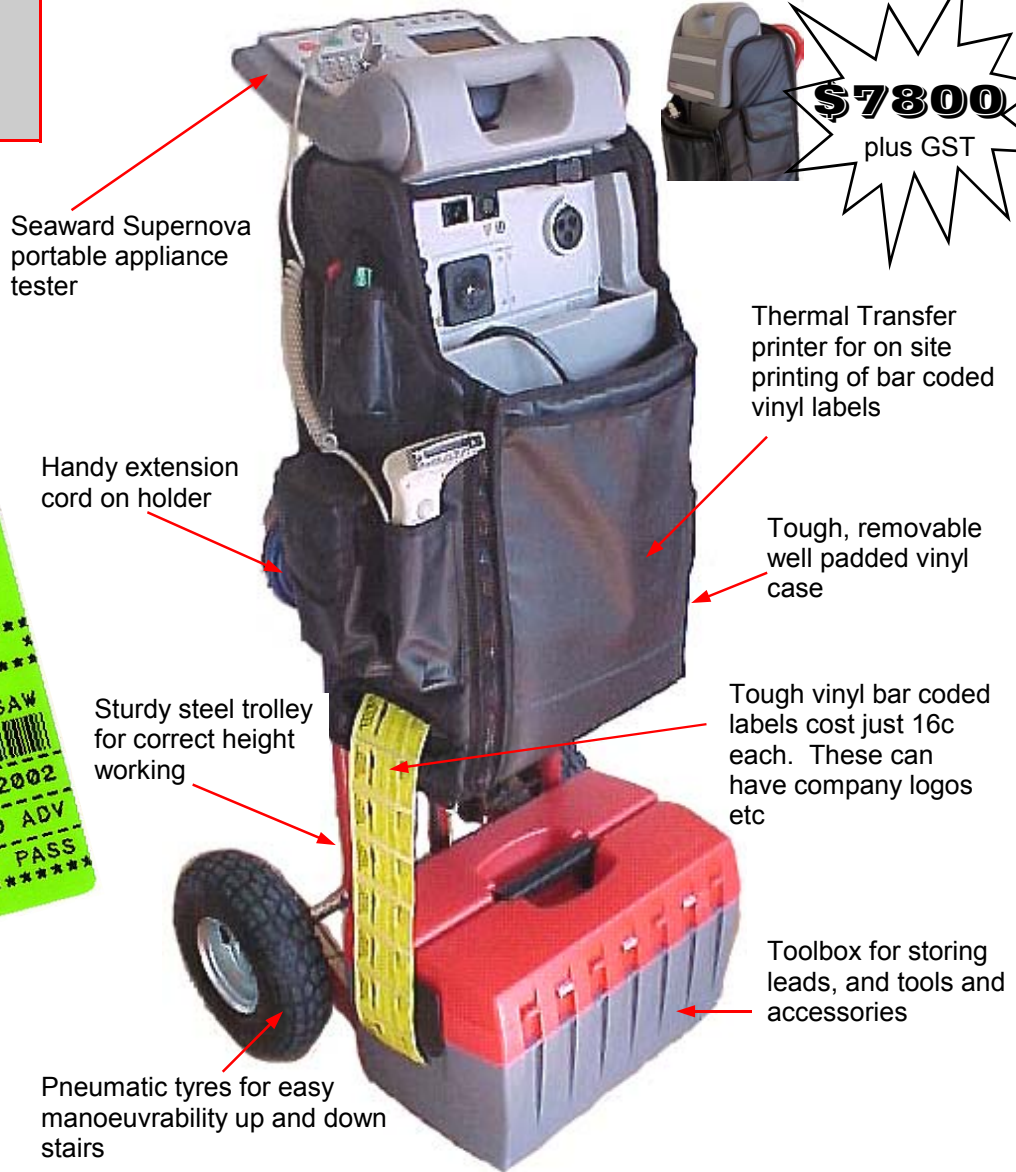

This SupaPAT uses the Supernova Portable Appliance Tester and is coupled together with a high spec technically advanced transfer printer capable of producing VINYL test labels that are bar coded automatically. This set up makes the large volume testing job a breeze.

The whole system fits onto a two wheeled trolley with a toolbox fitted to the bottom for those necessary tools and accessories.

Labels actual size.

Available in Lime Green, Bright Yellow, Bright Blue, Orange and white  
**Also Available:** Plastic overlays for even greater durability.

Seaward Supernova portable appliance tester

Handy extension cord on holder

Sturdy steel trolley for correct height working

Pneumatic tyres for easy manoeuvrability up and down stairs

Thermal Transfer printer for on site printing of bar coded vinyl labels

Tough, removable well padded vinyl case

Tough vinyl bar coded labels cost just 16c each. These can have company logos etc

Toolbox for storing leads, and tools and accessories

**\$7800**  
plus GST

The SupaPAT is very manoeuvrable and stable and is fitted with an extension lead and holder.

Obviously this advanced system is not the cheapest PAT Tester on the market – but if you want fool proof, ultra fast testing for large volumes of portable electrical appliances, then this is for you – when you consider these tough vinyl labels only cost 17c each it will not take long before the tester pays for itself.
